Life Skills	French	PSHE	PE
With an adult, follow a recipe to bake/cook something for your family.	Practice the days of the week and months of the year in French.	Keeping Healthy - Create a mind map of why exercise is important. Try to balance time spent on technology with some time being active.	Try this activity with a friend or family member to improve your striking skills. One player is the bowler and the other the striker. The bowler throws a soft ball (a pair of rolled up socks works just as well) at the striker. The striker must hit the ball with the palm of their hand as far as they can. Once they have hit the ball they do as many star jumps as they can before the bowler has picked up the ball and returned to the bowling area. The batter remembers their score and swaps with the bowler.
